2.4 Database implementation:

2.5Data Dictionary:

Category table

CategoryID	CategoryName
------------	--------------

The following is the data dictionary for the above fields:

Filed Name	Data Type	Filed Lenght	Constrain	Description
CategoryID	Char	5	Primary Key	Id of category
CategoryName	Varchar	30	Unique	Name of category

Product table

ProductID	ProductName	UnitPrice	ProductDescription	ProductImage	categoryID
-----------	-------------	-----------	--------------------	--------------	------------

The following is the data dictionary for the above fields:

Filed Name	Data Type	Filed Lenght	Constrain	Description
ProductID	Char	5	Primary Key	Id of product
ProductName	varchar	30	Not null	Name of product
UnitPrice	Decimal	4,2	Not null	Price of product
ProductDescription	Varchar	150	Null	Description of product
ProductImage	Varchar	100	Not null	Image of product
categoryID	Char	5	Foreign Key	Id of category

Cart table

CartID	Quantity	GrandTotal	PaymentMethod	ShippingCost	ShippingMethod
--------	----------	------------	---------------	--------------	----------------

The following is the data dictionary for the above fields:

Filed Name	Data Type	Filed Lenght	Constrain	Description
CartID	Char	5	Primary Key	Id of cart
Quantity	Char	3	Unique	Number of products
GrandTotal	Decimal	5,2	Not null	Total cost of products
PaymentMethod	Char	4	Not null	How to pay the price (cash or visa)
ShippingCost	Decimal	4,2	Not null	Cost of shipping
ShippingMethod	Varchar	30	Not null	Method of shipping

Product-Cart table

ProductID	CartID
-----------	--------

The following is the data dictionary for the above fields:

Filed Name	Data Type	Filed Lenght	Constrain	Description
ProductID	Char	5	Primary Key & Foreign Key	Id of product
CartID	Char	5	Primary Key & Foreign Key	Id of Cart

Order table

OrderID	OrderDate	TimeArrival	UserName
---------	-----------	-------------	----------

The following is the data dictionary for the above fields:

Filed Name	Data Type	Filed Lenght	Constrain	Description
OrderID	Char	5	Primary Key	Id of order
OrderDate	Date	10	Not null	Date of order
TimeArrival	Datetime	6	Not Null	estimated time of arrival of the product
UserName	Varchar	30	Foreign Key	User Name of the customer

User table

UserName	EmailAddress	UserPassword	Address
----------	--------------	--------------	---------

The following is the data dictionary for the above fields:

Filed Name	Data Type	Filed Lenght	Constrain	Description
UserName	Varchar	30	Primary Key	User Name of the customer
EmailAddress	Varchar	50	Unique	Email Address of the customer
UserPassword	Char	12	Not Null	Password of the customer account
Address	Varchar	150	Not Null	Home Address of the customer

User-Phone table

UserName	PhoneNumber
----------	-------------

The following is the data dictionary for the above fields:

Filed Name	Data Type	Filed Lenght	Constrain	Description
UserName	Varchar	30	Primary Key & Foreign Key	User Name of the customer
PhoneNumber	Char	20	Primary Key	Phones number of the customer
